Abstracts

In 2023 home insecticides maintained stable retail volume sales and displayed resilience in current value terms, driven by the strong need for protection from insects in the home. Consumers have been taking a more careful approach to dealing with pests, as they try to avoid illness such as dengue, which is transmitted by mosquitoes and causes influenza-style symptoms. However, beyond the perennial adversaries of mosquitoes, and ants, and cockroaches, which also plague households in Thailand, the...

Euromonitor International's Home Insecticides in Thailand market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues.
