Abstracts

Demand for home insecticides in the UK remained relatively stable in 2023, but very undynamic, as many of these products are considered to be of relatively little importance to consumers. Home insecticides are very season-dependent, as flying insects are more of a nuisance during the summer months. Other factors hampering growth in the category include the increase in regular cleaning using surface care products, which can help eradicate insects.

Euromonitor International's Home Insecticides in United Kingdom market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts to 2028 illustrate how the market is set to change.

Product coverage: Electric Insecticides, Insecticide Baits, Insecticide Coils, Other Home Insecticides, Spray/Aerosol Insecticides.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Home Insecticides market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and
