Abstracts

2022 saw a significant slowdown in value growth across home and garden in Indonesia as demand faltered somewhat after very strong growth was recorded across most categories in 2021 due to demand picking up substantially as the impact of the COVID-19 pandemic wore off. However, demand has now either matched or exceeded pre-pandemic levels in virtually all categories. One major factor that put pressure on demand during 2022 is the supply chain disruptions that were caused by the Ukraine conflict,...

Euromonitor International's Home and Garden in Indonesia report offers a comprehensive guide to the size and shape of market demand at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the categories driving growth. It also identifies the leading companies and their brands, and offers strategic analysis of key factors influencing demand - from new product developments, consumer lifestyles, route to market and pricing issues. Forecasts to 2027 illustrate how market demand is expected to evolve in the medium-term

Product coverage: Home Improvement and Gardening, Homewares and Home Furnishings.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
