## Abstracts

Value sales growth of home and garden in Singapore notably slowed in 2022 compared to the previous year. Singapore witnessed a major shift with pandemic restrictions easing in 2022, which contributed to this slowdown. Post-pandemic, local consumers started to spend greater time outside of their homes, as schools, offices and foodservice reopened. This drew the focus of their spending away from the home environment. In addition, economic instability and a higher inflation rate in Singapore compar...

Euromonitor International's Home and Garden in Singapore report offers a comprehensive guide to the size and shape of market demand at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the categories driving growth. It also identifies the leading companies and their brands, and offers strategic analysis of key factors influencing demand - from new product developments, consumer lifestyles, route to market and pricing issues. Forecasts to 2027 illustrate how market demand is expected to evolve in the medium-term
