Abstracts

Given that home and garden specialist retailers were not considered essential retailers, such outlets were required to close during the 2020 lockdown. Whilst this led to particularly poor current value sales during the first half of the year, continued border restrictions, weakened consumer spending, supply issues, a restricted workforce, and limited public transportation continued to affect the channel for the rest of 2020.

Euromonitor International's Home and Garden Specialist Retailers in Philippines report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

Product coverage: Home Improvement and Gardening Stores, Homewares and Home Furnishing Stores.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Home and Garden Specialist Retailers market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and leading brands;

Use five-year forecasts to assess how the market is predicted to develop.
