Abstracts

Home video is experiencing a more positive performance than many of its consumer electronics counterparts in 2023, with small volume sales. This growth, however, represents a stabilisation in volume levels following the sales spike during the height of the COVID-19 pandemic in 2020 and 2021. As such, 2023 volumes are below pre-pandemic comparisons with 2019, despite the upwards trajectory.

Euromonitor International's Home Video in Norway report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues. Forecasts illustrate how the market is set to change.

Product coverage: Televisions, Video Players.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Home Video market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and leading brands;
