Abstracts

Retail volume sales of home video, which is made up entirely of televisions, suffered a further decline in 2023. Demand was restricted by the maturity of the market, alongside consumers' shrinking budgets, as they continued to be affected by high interest rates and uncertainty about future economic developments. As such, opportunities for growth were restricted to niche and higher-income groups.

Euromonitor International's Home Video in Portugal report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues. Forecasts illustrate how the market is set to change.
