Hi-fi systems products are particularly popular with the lower-income population in the country, with a focus in the Northeast region and poor suburbs of big cities. However, over the past five years this category showed the strongest decline of sales within home audio and cinema, which could be attributed to two main factors. The first was the economic downturn the country faced since 2014, which had a stronger negative impact on the purchasing power and consumer confidence of the target group...

Euromonitor International's Home Audio and Cinema in Brazil report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues.
