Price: US\$ 990.00 (Single User License)

ID: HFB3F3ACDE8EN

Abstracts

In 2022, Thailand witnessed high inflation, which was mainly attributed to the hike in energy and commodity prices following Russia's invasion of Ukraine early on in the year. Consequently, Thai consumers sought ways to reduce their expenses and turned to more affordable options, including switching to Light-Emitting Diode lamps (LED). Apart from the cost-effectiveness of these products, the higher efficiency provided by LED added to the increased rate of adoption amongst consumers.

Euromonitor International's Home Furnishings in Thailand report offers a comprehensive guide to the size and shape of market demand at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the categories driving growth. It also identifies the leading companies and their brands, and offers strategic analysis of key factors influencing demand - from new product developments, consumer lifestyles, route to market and pricing issues. Forecasts to 2027 illustrate how market demand is expected to evolve in the medium-term
