Abstracts

Home insecticides performed badly in 2023, with both value and volume sales falling. Home insecticides are very dependent on the weather conditions in the country, and is, therefore, very seasonal. With the summer of 2023 not being as hot as the previous year, this contributed to a decline in sales of home insecticides. Falling purchasing power also contributed to the decline, as inflation remained high.

Euromonitor International's Home Insecticides in Azerbaijan market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues.
