Abstracts

In 2021, homeshopping was able to register positive growth given consumers' home seclusion from May onwards due to COVID-19. The extended time at home paved the way for a greater number of products to be purchased from TV channels, especially those from the largest category of consumer health, as the Vietnamese became more vigilant over their personal health and wellbeing.

Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.
