Abstracts

When compared to the pre-pandemic period, the demand for homewares in Italy declined during the COVID-19 crisis. This could be attributed to two main reasons. Firstly, as people were conscious about cleanliness during the pandemic, they chose to use more disposable products, such as plastic storage containers, to avoid any contamination. Secondly, with more people working from home and spending more time indoors, there was less of a need for formal or elaborate meals that would require the use o...

Euromonitor International's Homewares in Italy report offers a comprehensive guide to the size and shape of market demand at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the categories driving growth. It also identifies the leading companies and their brands, and offers strategic analysis of key factors influencing demand - from new product developments, consumer lifestyles, route to market and pricing issues. Forecasts to 2027 illustrate how market demand is expected to evolve in the medium-term
