## Abstracts

Sales of homewares fell in both current value terms and in value terms at constant 2022 prices in 2022. Nevertheless, sales remained higher by both measures than before the pandemic, due to the growing “nesting” phenomenon during and to some extent since the pandemic, which describes consumers’ propensity to spend more time at home and make improvements to their homes. The pandemic expedited this tendency, since more consumers were required to work and cook at home. However, after seeing strong...
