Abstracts

In 2020, although turning to decline, hosiery displayed remarkable resilience, standing out for its performance amongst various categories in apparel and footwear. This resilience stemmed from the continued demand for non-sheer hosiery, which became a vital accessory for various at-home activities during the early days of the pandemic. Sales rebounded in 2021, but as inflation peaked in 2022 and the cost of living continued to rise in 2023, hosiery has been perceived as less essential compared w...

Euromonitor International's Hosiery in USA report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022 and analysis by distribution format allowing you to identify the sectors driving growth.
