## Abstracts

As France emerged from the pandemic in 2022, work-from-home activities, which had been prevalent in 2020, when the pandemic first hit the country, were coming to an end, with people returning to the office. After the spike in demand for retail sales of hot drinks in 2020, when people were spending a lot more time at home than usual, hot drinks packaging unit volumes have since been in decline, in both 2021 and 2022. However, sales remained at higher levels than pre-pandemic, with hot drinks also...

Euromonitor International's Hot Drinks Packaging in France report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

Product coverage: Coffee, Other Hot Drinks, Tea.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
