## Abstracts

Norway has continued to be impacted by elevated inflation and a rise in the cost of living which has forced consumers to be more cautious with their spending. Furthermore, with the pandemic now over there has been a resumption of cross-border trade with Sweden. As a result, retail volume sales of hot drinks have continued to decline in 2023. However, this also reflects a stabilisation of demand after the dynamic growth seen during the height of the pandemic.

Euromonitor International's Hot Drinks in Norway report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they legislative, distribution or pricing issues. Forecasts to 2027 illustrate how the market is set to change.

Product coverage: Coffee, Other Hot Drinks, Tea.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Hot Drinks market;
