## Abstracts

Many hot drinks in the United Arab Emirates are considered to be less essential compared to food categories and some soft drinks categories, such as bottled water and juice. This makes them vulnerable in the face of inflation, economic instability or population shift. This is the reason why the overall hot drinks industry in the United Arab Emirates is recording generally slower retail volume growth rates than soft drinks, although its performance is stable overall.

Euromonitor International's Hot Drinks in United Arab Emirates report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they legislative, distribution or pricing issues. Forecasts to 2027 illustrate how the market is set to change.

Product coverage: Coffee, Other Hot Drinks, Tea.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
