Abstracts

Folding cartons and aluminium/plastic pouches were preferred by consumers during the pandemic in 2020 as they are available in large pack sizes to enable the stocking up of products at home. Such buying behaviour was triggered by the presence of COVID-19, with consumers buying huge quantities in one go to minimise their number of shopping trips to physical stores and hence their potential exposure to the virus.

Euromonitor International's Hot Drinks Packaging in Singapore report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

Data coverage: Coffee, Other Hot Drinks, Tea.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Hot Drinks Packaging market;

Pinpoint growth sectors and identify factors driving change;
