Pages: 9

Price: US\$ 990.00 (Single User License)

ID: H748F0374EAEN

## Abstracts

Retail packaging volumes of hot drinks in the Netherlands saw a much weaker performance in 2021 following the outstanding growth that they recorded in 2020. Key pack types such as folding cartons and flexible plastic saw a significant weakening of their performances in 2021 compared to a year earlier, which could be attributed to some shift back towards foodservice in 2021, as the COVID-19 pandemic came under better control, which impacted the retail channel's performance.

Euromonitor International's Hot Drinks Packaging in Netherlands report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

**Product coverage:** Coffee, Other Hot Drinks, Tea.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.

### Why buy this report?

Get a detailed picture of the Hot Drinks Packaging market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and leading brands;

Use five-year forecasts to assess how the market is predicted to develop.
