Abstracts

The household goods industry was able to maintain steady growth in 2019, driven by significant expansion in private consumption. Increasing disposable incomes, a record low unemployment rate, falling inflation as well as expansionary fiscal policy supported growing household consumption over the year. However, Brexit-related uncertainty has started to take a toll on consumer and business confidence, which is projected to have a negative effect on industry demand in the short term.

Euromonitor International's Industrial reports provide a 360 degree view of an industry. The Industrial market report offers a comprehensive guide to the size and shape of the Household Goods market at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts illustrate how the market is set to change.

Product coverage: Furniture, Imitation Jewellery, Brushes and Other Personal Items, Jewellery and Related Articles, Musical Instruments, Sports Goods, Toys and Games, Watches and Clocks.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
