Abstracts

As the world moves ever closer to “greener” business and lifestyle practices, households have become a central focus in sustainability trends. Homeowners are turning to smart-home technologies for cost-savings, taking out “green loans” to improve their dwelling’s energy efficiency, and creating opportunities for companies in areas like sustainable furniture and circular business models. This Strategy Briefing aims to analyse and highlight sustainability themes for households.

Strategy Briefings offer unique insight into emerging trends world-wide. Aimed squarely at strategists and planners, they draw on Euromonitor International’s vast information resources to give top line insight across markets and within consumer segments. Written by some of our most experienced analysts, they are designed as provocations for senior management to use in their own forum, allowing them to stand back and reflect on the behaviour and motivation driving global markets today and tomorrow

Product coverage:

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Identify factors driving change now and in the future

Understand motivation

Forward-looking outlook

Briefings and presentation should provoke lively discussion at senior level

Take a step back from micro trends

Get up to date estimates and comment

Euromonitor International has over 40 years' experience of publishing market research reports, business reference books and online information systems.
