Abstracts

In recent years, there has been a notable surge in health-consciousness amongst Chinese consumers. This positive trend can be attributed, in part, to a concerted effort by the government through its 'Three Reduce' campaign, which aims to curtail the consumption of sugar, salt, and fat in daily diets. The overarching goal of this initiative is to enhance the overall health and wellbeing of the population. This campaign has yielded tangible results, with an evident shift towards products that prio...

Euromonitor International's HW Cooking Ingredients and Meals in China report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2027 illustrate how the market is set to change.
