## Abstracts

Environmental and animal welfare care, as well as health concerns, are providing a boost to sales of plant-based, meat free, and vegan cooking ingredients and meals. Organic-focused consumers also often look for foods to enable them to substitute animal proteins, while almost half of all plant-based product launches in Denmark since 2013 have also been organic. This strong consumer interest in plant-based and meat-free options in nutrition in Denmark is also being supported by the government's g...

Euromonitor International's HW Cooking Ingredients and Meals in Denmark report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2027 illustrate how the market is set to change.
