## Abstracts

Cooking ingredients and meals in Germany saw several significant developments in 2022, including a growing focus on sustainability, convenience, and health. Sustainability has become an essential factor in the German market, with many consumers looking for products that are organic, fair trade, and environmentally friendly. As a result, many companies are now offering more sustainable products, including eco-friendly packaging and plant-based ingredients. Convenience has also been a growing tren...

Euromonitor International's HW Cooking Ingredients and Meals in Germany report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2027 illustrate how the market is set to change.
