Abstracts

Local consumers have been paying greater attention to their diets as well as their gut health since the pandemic. As such, when consumers in Hong Kong choose cooking ingredients and meals, the natural claim is one of their main concerns. It is widely-perceived that consuming natural foods reduces the likelihood of developing various COVID-19 symptoms as well as other chronic diseases, including diabetes and heart disease. In light of this, local farms identified an opportunity to enter the domes...

Euromonitor International's HW Cooking Ingredients and Meals in Hong Kong, China report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector.
