Abstracts

Increased adoption of home cooking and heightened health-consciousness among local consumers since the pandemic have led to growing interest in greater product variety and nutritional options available in retail channels for cooking ingredients and meals. Major players have been diversifying their portfolios to offer healthier options with niche product offerings in addition to different flavours, in an attempt to differentiate and tap into the demands of health-conscious, sophisticated consumer...

Euromonitor International's HW Cooking Ingredients and Meals in Singapore report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2027 illustrate how the market is set to change.

Product coverage: HW Cooking Ingredients and Meals by Type, HW Edible Oils, HW Meals and Soups, HW Sauces, Dips and Condiments, HW Sweet Spreads.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
