## Abstracts

In an inflationary environment, unevenly rising prices inevitably affected the purchasing power of many Spanish consumers in 2022, hampering the growth of certain health and wellness cooking ingredients and meals. Despite the temporary downhill across some claims, Spaniards are becoming increasingly interested in vegan options, with strong growth also recorded by plant-based and vegetarian claims in 2022. The rising perception that these products are beneficial for human health, and for environm...

Euromonitor International's HW Cooking Ingredients and Meals in Spain report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2027 illustrate how the market is set to change.
