## Abstracts

Despite Taiwan aiming to live with COVID-19 and return to normal lifestyles, confirmed COVID-19 case numbers spiked in 2022 with more than 10,000 cases per day. In line with heightened health consciousness, which has been bolstered by the experiences of the COVID-19 crisis, consumers are increasingly demanding more natural products and fewer additives in their food. They are especially wary of added sugar, with sugar becoming the focus of a growing amount of publicity for its role in the develop...

Euromonitor International's HW Cooking Ingredients and Meals in Taiwan report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences.
