Abstracts

In 2022, dairy products and alternatives continued to face challenges in Brazil given economic constraints of the local population. Despite initial benefits of pandemic-related social isolation on dairy consumption at home, Brazilians have been severely affected by inflation, especially in drinking milk products and other dairy options. Animal feed costs, gas prices and overall inflation have impacted milk production, reducing overall volumes in Brazil. Consumers are looking for cheaper alternat...

Euromonitor International's HW Dairy Products and Alternatives in Brazil report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2027 illustrate how the market is set to change.
