Abstracts

Nestlé was the dominant player in baby food in 2022, with the company synonymous with trust and assurance of quality. Baby food, including milk formula, is considered essential for the holistic development of babies and young children, both physically and mentally. According to Euromonitor International's economies and consumers data, India has one of the highest populations of children aged 0 to 5 years. With the rise in dual-income families, with both parents working, there is less time availa...

Euromonitor International's HW Dairy Products and Alternatives in India report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2027 illustrate how the market is set to change.

Product coverage: HW Baby Food, HW Dairy and Plant-based Dairy, HW Dairy Products and Alternatives by Type.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
