Abstracts

Local consumers are increasingly interested in healthy and convenient food options, with demand also remaining steady for indulgent dairy products. However, in response to growing vegetarian, vegan and flexitarian trends, plant-based products continue being launched, with sales performing well in 2022. Whether vegan, sensitive to dairy, increasingly health consciousness or just looking for different products, the demand for plant-based dairy continues to grow each year, fuelling the number of pl...

Euromonitor International's HW Dairy Products and Alternatives in Israel report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2027 illustrate how the market is set to change.

Product coverage: HW Baby Food, HW Dairy and Plant-based Dairy, HW Dairy Products and Alternatives by Type.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
