Abstracts

In Saudi Arabia, there is increasing awareness of the importance of healthy eating as a means of improving the immune system, and organic products are favoured, as they are seen as more natural. According to Euromonitor International's Voice of the Consumer: Lifestyles survey 2022, 100% organic is the most influential food feature for consumers in Saudi Arabia, with 23% of respondents choosing this option. This is reflected in the dairy aisles, with an increasing number of organic dairy products...

Euromonitor International's HW Dairy Products and Alternatives in Saudi Arabia report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2027 illustrate how the market is set to change.

Product coverage: HW Baby Food, HW Dairy and Plant-based Dairy, HW Dairy Products and Alternatives by Type.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
