Abstracts

Although Spanish consumers had to tighten their belts in 2022 due to high inflationary pressures, various health and wellness dairy products and alternatives witnessed growth during the year. Demand for low fat/no fat claims stabilised in 2022, with some consumers becoming more concerned with enhancing their nutritional intake rather than weight control. In addition, an increasing number of Spaniards who initially had no health issues have given preference to full fat dairy products as they are...

Euromonitor International's HW Dairy Products and Alternatives in Spain report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2027 illustrate how the market is set to change.

Product coverage: HW Baby Food, HW Dairy and Plant-based Dairy, HW Dairy Products and Alternatives by Type.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
