Abstracts

With the increasing prioritisation of health and a growing scarcity of time, consumers are actively seeking faster and more efficient ways to safeguard their wellbeing. As a result, drinking milk products with fortified/functional attributes have become a highly attractive option for health-conscious individuals, as dairy products provide a convenient vehicle for delivering essential nutrients.

Euromonitor International's HW Dairy Products and Alternatives in Thailand report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2019-2023, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2028 illustrate how the market is set to change.

Product coverage: HW Baby Food, HW Dairy and Plant-based Dairy, HW Dairy Products and Alternatives by Type.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
