Abstracts

While total retail volume of hot drinks overall declined in Argentina over the course of 2022, volume sales increased in the vast majority of health and wellness hot drinks categories and this can be regarded as a clear sign of the strong shift towards health and wellness options that is being seen across the hot drinks industry. While the economic crisis and high inflation have put enormous pressure on consumer spending on hot drinks generally, consumers are becoming increasingly intent on prio...

Euromonitor International's HW Hot Drinks in Argentina report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2027 illustrate how the market is set to change.
