Abstracts

Hot drinks with natural ingredients and low or no added sugar remained popular in the Czech Republic in 2022. Naturally healthy products like tea saw strong growth thanks to the return of the standard flu season in the autumn and winter months of 2022. The number of cases of flu dropped during 2020 and 2021 as a byproduct of the efforts to contain the spread of COVID-19. As the number of cases of cold and flu rose so too did the demand for natural tea, with this pattern expected to continue in 2...

Euromonitor International's HW Hot Drinks in Czech Republic report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences.
