Abstracts

The increasing availability of plant-based instant hot drinks, such as coffee, is in line with wellness trends as local consumers perceive plant-based substitutes to be better for the body compared to regular dairy. The dairy element in instant hot drinks is typically replaced with oat, soy, or almond milk, and formats can range from fresh ground capsule pods to instant mixes. Dairy substitutes also support lactose-intolerant consumers, as does lactose free coffee, as well as those seeking a con...

Euromonitor International's HW Hot Drinks in Singapore report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences.
