## Abstracts

Hot drink innovations in 2022 were primarily focused on new offerings addressing consumer demand for non-animal products, including healthy plant-based alternatives, across chocolate-based, malt-based and other plant-based drinks. However, these innovations were largely from smaller, albeit known, players, which are pushing their products across a number of distribution channels, ranging from large retailers such as Checkers, to franchise specialist stores, such as Faithful to Nature.

Euromonitor International's HW Hot Drinks in South Africa report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2027 illustrate how the market is set to change.

Product coverage: HW Coffee, HW Hot Drinks by Type, HW Other Hot Drinks, HW Tea.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
