Abstracts

Despite holding overall low value sales share within Spanish hot drinks, demand for organic options rose in 2022. Organic tea experienced certain resilience with a positive evolution in both green tea and the larger category of fruit/herbal tea. The most significant factor limiting stronger demand for organic products is their higher price points compared to standard options. Production costs for organic food and beverages are typically higher because of greater labour input per unit and because...

Euromonitor International's HW Hot Drinks in Spain report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences.
