Abstracts

The lingering impact of the COVID-19 pandemic combined with the economic fallout from Russia's invasion of Ukraine led to skyrocketing unit prices as Sweden experienced spiralling rates of inflation. This led to a drop in disposable income which in turn influenced consumer purchasing decisions, including when it came to coffee. In addition, another key driving force within coffee in Sweden was related to a growing demand for environmentally friendly, ethical, and fresh options. As such, health a...

Euromonitor International's HW Hot Drinks in Sweden report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2027 illustrate how the market is set to change.
