Abstracts

The volume growth of snacks in Japan has been hampered by the fact that the population is facing a declining trend. Moreover, companies have been having difficulty controlling product costs and maintaining their profits, as raw materials, energy, and logistics costs increased significantly during the past few years. As a result, snacks players have been looking to sell value-added products to maintain their value sales. Products with health and wellness claims are seen as a promising way to add...

Euromonitor International's HW Snacks in Japan report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2027 illustrate how the market is set to change.

Product coverage: HW Confectionery, HW Ice Cream, HW Savoury Snacks, HW Snacks by Type, HW Sweet Biscuits, Snack Bars and Fruit Snacks.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
