ID: HDBE9F7C5ADCEN

Abstracts

Spaniards are increasingly reducing their sugar intake when consuming packaged foods, including snacks that contain low sugar content. This trend has become mainstream within sweet biscuits. Local consumers want to treat themselves but with no detrimental impact on their health. As a result, players are trying to deliver products with lower sugar content whilst retaining flavour to avoid alienating their target audience. The price gap between free from and standard products is shrinking, which i...

Euromonitor International's HW Snacks in Spain report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2027 illustrate how the market is set to change.
