Abstracts

In October 2022, Brazil's new label legislation was put into practice, updating the previous regulations with important advancements, the first being a front-facing nutritional label. This is starting to highlight the importance of ingredients and content, especially of carbohydrates derived from processed sugar, that will now be more visible to consumers when they make their purchasing decisions. Although this legislation initially impacts packaged food, it is expected to be extended to soft dr...

Euromonitor International's HW Soft Drinks in Brazil report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector.
