Abstracts

Health and wellness soft drinks options remained in demand in 2022 in the Czech Republic, with current value growth driven by inflation and product innovation. A gradual shift from retail to on-trade was also visible, as Czech bars and restaurants fully reopened for business following the lifting of pandemic restrictions. Nonetheless, demand was significantly impacted by the weakening purchasing power of Czech households, which made price promotions and discounts more popular. This initially led...

Euromonitor International's HW Soft Drinks in Czech Republic report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2027 illustrate how the market is set to change.
