Abstracts

The strongest trend in health and wellness soft drinks in Italy in 2022 concerned the development of low sugar and no added sugar soft drinks. This was linked to the growing media attention on Italy's rising obesity rate and the health risks associated with a high sugar intake, with this leading many Italians to focus on improving their diet. As such, low sugar and no sugar soft drinks are increasing in popularity among Italian consumers. At the same time, the ongoing discussion around the intro...

Euromonitor International's HW Soft Drinks in Italy report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2027 illustrate how the market is set to change.
