Abstracts

As the number of obese and overweight people in Poland has been increasing, NGOs and the Ministry of Health promote increasing physical activity and reducing calorie consumption, especially underlining reducing the consumption of sugary drinks. The Polish ruling party listened to these pleas, and in 2021 launched a sugar tax on sugar-containing soft drinks, with the level of tax based on the amount of sugar per 100ml of beverage. With the introduction of the sugar tax, retail prices increased by...

Euromonitor International's HW Soft Drinks in Poland report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences.
