Abstracts

Sugar intake remains one of the primary concerns for consumers in Spain, which supported demand for low sugar, no sugar and no added sugar claims within soft drinks in 2022. A major contribution comes from no sugar cola carbonates. While lower-income consumers were generally forced to reduce their spending on perceived non-essential goods towards the end of the review period due to high inflation, an increase in VAT and lower disposable incomes, health-conscious consumers continued to value bett...

Euromonitor International's HW Soft Drinks in Spain report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector.
