Abstracts

In recent years, the adverse and unpredictable economic situation in Argentina in general and high inflation in particular have put pressure on demand for health and wellness staple foods, due largely to the higher prices that are inevitably charged staple foods with a health and wellness positioning. Indeed, Argentina's accumulated inflation rate peaked at 94.8% in 2022, according to the National Institute of Statistics and Censuses (INDEC). Consequently, regular spikes in food prices completel...

Euromonitor International's HW Staple Foods in Argentina report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2027 illustrate how the market is set to change.
