Abstracts

The oat boom continues expanding in Finland. Not only are oats a traditional Nordic superfood, but there is also considerable new product development allowing brands to deliver value-added benefits. The health benefits of oats are widely known in Finland and are clearly behind the success of oat bread, which has seen the range of selections continue to grow. Oats are known to be naturally gluten free, and many Finns who suffer from gluten intolerance favour oat bread in their diets. Furthermore,...

Euromonitor International's HW Staple Foods in Finland report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2027 illustrate how the market is set to change.
