Abstracts

The number of people adopting vegan, vegetarian and flexitarian diets is growing in France. While still somewhat underdeveloped as compared to neighbouring markets such as the UK and Germany, this trend has gained momentum in recent years, primarily due to improved public education about how meat consumption can increase the risk of heart disease, certain types of cancer and various other health problems. It has been further reinforced by rising awareness of the environmental impact of meat prod...

Euromonitor International's HW Staple Foods in France report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2027 illustrate how the market is set to change.
